ASK!

SHIP FAST

A. Agile = doing experiments

B. Learning from a baby elephant

C. Some ideas for your baby elephant

D. Just do it!

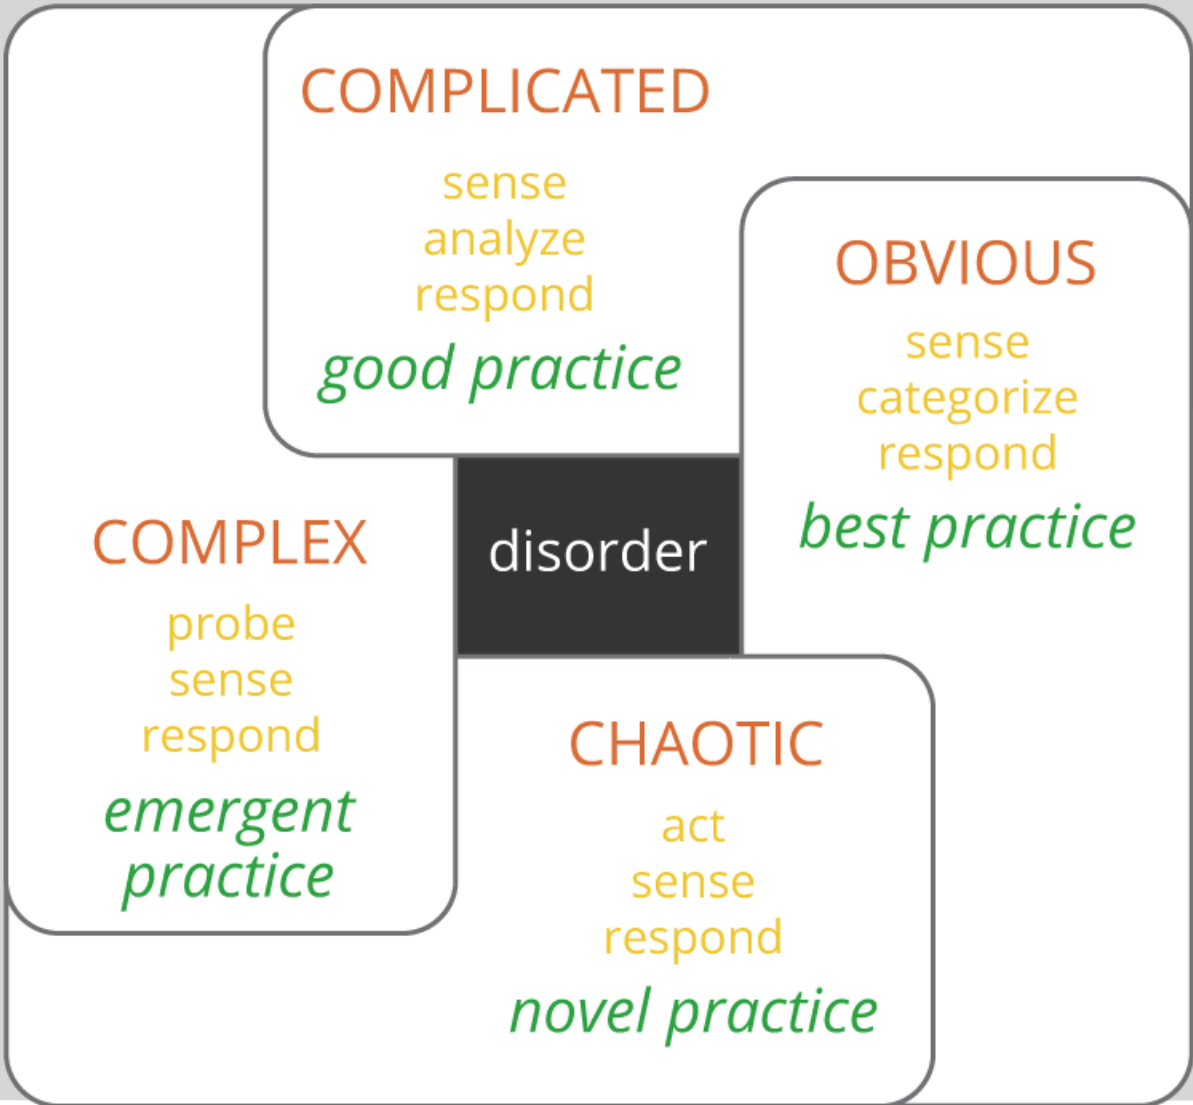

WORKING SOFTWARE IS THE
PRIMARY MEASURE OF PROGRESS

LEARNING!

CYNEFIN

The digital transformation changes most of the complicated businesses into complex businesses

COMPLEX

DEFINE YOUR BABY ELEPHANT!

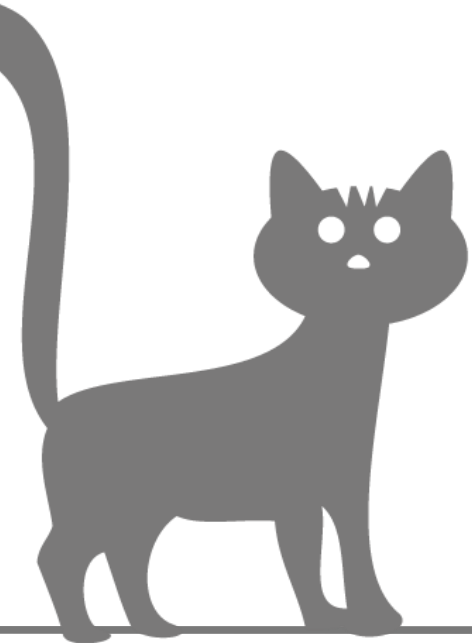

MAKE EXPERIMENTS

Arguments 1

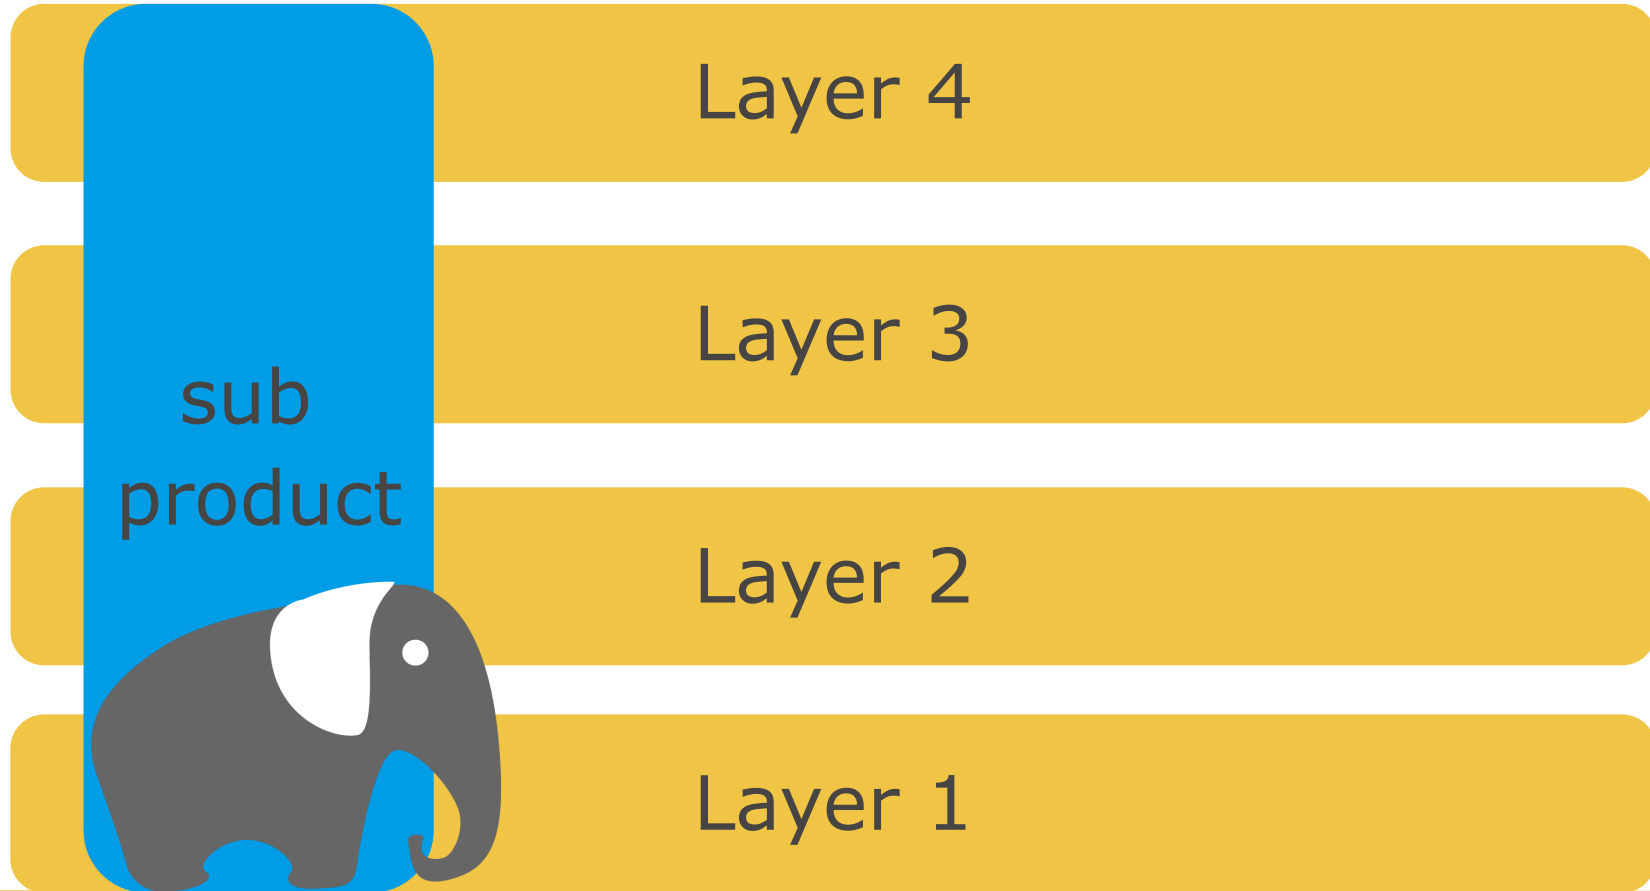

We can not do continuous delivery.

We are not able to deploy only a sub feature.

We do have too many dependencies.

Ship vertically

BYPASS DEPENDENCIES TO OTHER VERTICALS

Test automatization

Test your vertical
SLA for fixing in live system
Feature toggles

Budget for stopped system

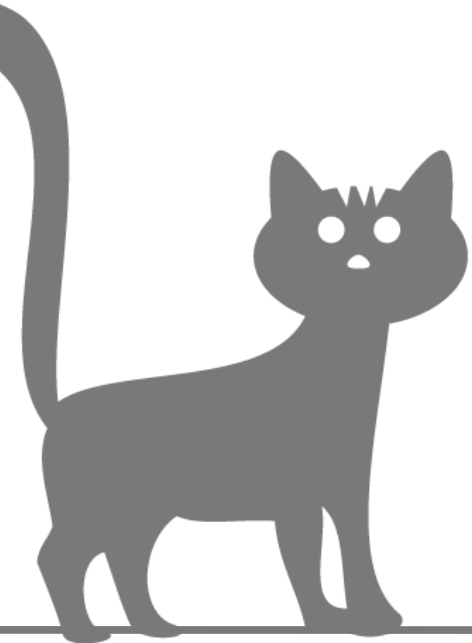

IT'S AN EXPERIMENT!

JUST TRY ;-)

Arguments 2

Our clients expect more

Our clients do not except experiments

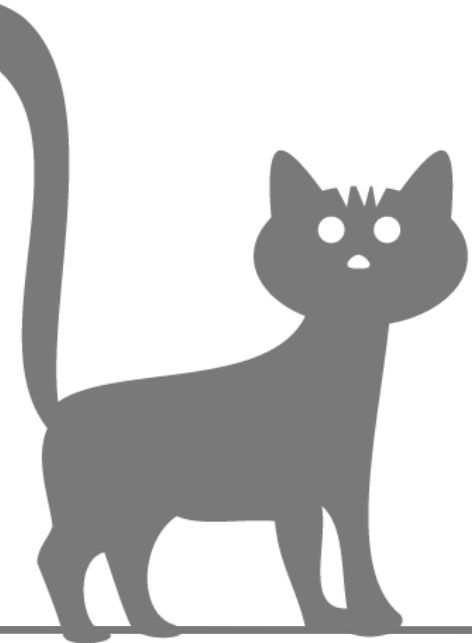

WHOEVER COMES
IS THE RIGHT PEOPLE

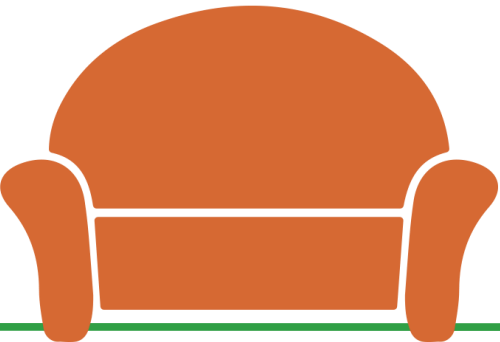

Arguments 2

Our clients expect more

Our clients do not except experiments

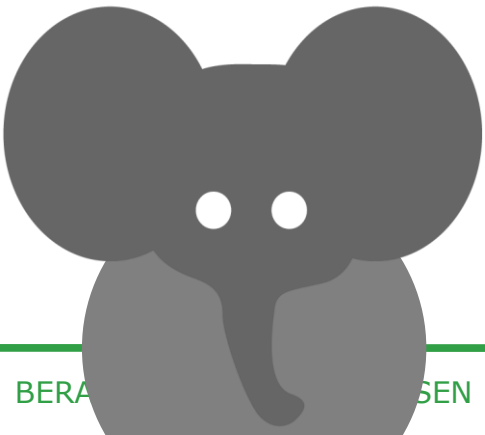

ARE YOU SURE?
DID YOU EVER TRY IT?

SHIP FAST = SHIP SMALL EXPERIMENTS

THREE QUESTIONS

- _ What is our experiment for this sprint?
- _ How can we speed up?
- _ Is there anything that we can do manually / small / untypical to speed up?

DEFINE YOUR BABY ELEPHANT

THINK UNCONVENTIONALLY

JUST DO AN EXPERIMENT
